The world is changing rapidly, and the pace of change is accelerating. This is the VUCA world: Volatile, Uncertain, Complex, and Ambiguous. In this environment, the traditional ways of working are no longer sufficient. We need new skills and mindsets to thrive. Artificial Intelligence (AI) is one of the most significant technologies driving this change. It is transforming industries, creating new opportunities, and posing new challenges. We must embrace AI and learn to work alongside it to succeed in the future.
