### Personalize Your Template

While templates provide a great starting point, ensure you customize them to reflect your personal brand and experience. Modify the design elements, fonts, and colors to make it unique.

### Focus on Content

A well-designed template is important, but your CV's content is what will ultimately land you the job. Prioritize clear, concise, and relevant information over design.

### Use Keywords

Incorporate keywords from the job description to help your CV get past Applicant Tracking Systems (ATS).

### Quantify Achievements

Use numbers to quantify your achievements (e.g., "Increased sales by 20%," "Managed a team of 10 people").

### Proofread Carefully

Ensure your CV is free of typos and grammatical errors. Consider having a friend or professional review it.
